

LeGrande

Model 36350
Dual-Motor

The inspiration for the CinemaTech LeGrande is the famed Nuremberg ring in Germany. With its inviting sculptured back, the LeGrande literally cradles you as you move effortlessly into the perfect viewing position. The LeGrande will transport you into your favorite movie or sound track.

Dimensions

CinemaTech Offers

Artisan Renderings

When a client builds a theater or customizes their seating, CinemaTech creates life-like 3-D renderings of the environment or seating, so the client can visualize the end result.

Custom Layouts

CinemaTech creates a layout and, if needed, a floorplan to show how the seats will be arranged.

White Glove Service

CinemaTech installs the seats for the dealer so that their labor can focus on other critical components.

Next-Day Material Samples

CinemaTech delivers most material samples the next day to meet critical timelines.

Seating Options

Handmade Wooden Table

Glass Table

Contrast Piping

Cup Holders

Removable Arm

Contrast Stitching

Color Blocking

Essential to the Finest Home Cinemas

Since its founding in 1998, CinemaTech has created products that are essential to the finest home cinemas. Having built over 10,000 seats and designed over 1,000 theaters, CinemaTech has had the privilege of working with the finest estates in the world. Starting with the legendary, award-winning, Valentino, CinemaTech has become the gold standard for luxury seating, acoustical treatment and design expertise for home theaters.

We truly believe beauty comes from the inside out. All of our materials, from the seamless motor, to the premium dense foam and stitching are key to its beauty. Each CinemaTech product exhibits our passion for superior quality, craftsmanship and dedication to a premium cinema experience.

Your theater deserves CinemaTech.

Finest Leathers

The leather on a CinemaTech seat is unlike any other. It's the finest in the world. The superior finish of CinemaTech leather originates from a rigorous process, in which only 5% of the hides meet our quality standards.

Each hide is selected with acute sensitivity to imperfections, allowing only the best to be applied to your seat.

CinemaTech's aniline dyed leather is known for its exceptional beauty, rich texture and soft hand for a luxurious experience. Only the finest 1% of top grain hides may be aniline dyed.

Luxury Suede, Cashmeres & Wools

CinemaTech sources directly from top mills in Italy, including Alcantara and Loro Piana. With our partners sourcing the best raw materials in the world, the result is a seating surface that is one of the finest in the world.

Creating a premium seating surface not only entails attention to details, but responsibly harvesting raw materials and manufacturing the material in sustainable fashion.

Be it an incliner, sofa or chaise, CinemaTech's fabric offers the unique allure of comfort and timeless elegance.
